## **Someone Ran Through Naked**

Meaningless escapade retrieval devices  
shelved concealment wonder  
for whatever running  
wouldn't gain in footing or distance or direction  
confuse the relation or re-assert the private

a whole entry or  
this entire on the spot thing  
right in front of nobody  
claiming itself, though

Sprinting, so quick the floor placed  
beneath, returns muffled pace  
the most tiring runner  
the most vulnerable

situated to lollygag sprint  
read the situational contexts  
lodging family valueless contrite  
tired grumps and loud brawling

Greatest human triumphs  
sighing or guttural noise  
the music of existence  
sport, games conceived  
trickery we leave  
cajoled, these

Explain it like sportsmanship  
don't interrupt, though  
there's a nervous humiliation bitch  
damn, sometimes

contentment for the away and senselessness  
must be bound to escape somehow  
must be fantastical and bursting  
must be menacing already knew yuh sort

wished condolence for lonesomeness  
another characterizing or building exorcism  
whoops, meant exercise  
absolute freedom

however you can

Cornering and interrogative procedures becoming  
automatically minuteness  
bleak and obvious  
huge whiffs of egoist uncensored  
tell me how it is, at least be genuine  
yourself, my this

Conscious doubting relevance  
running through  
scared and naked  
relieves or tried to encapsulate  
that moment your own or  
myself, these

Contributions to the sensation of existence  
must always imagine betterment  
this needed to and for everyone's sake  
it's not that it is good enough  
it is enough.

## **Dead Horse**

Carved out a horse  
to sleep in, horrible  
stench, cavernous tissue hung  
stretched out lengths of endurance  
or bouts of barn sour  
hexes meant you stayed

The dull pulsing sweat  
unbearable warmth  
air outside  
as threatening  
as the assaulting smell  
as the endurance thought wintertime

The morphing structure twitch  
shutters insolence and gore  
inside this ribcage  
hides and in revealing  
steam winces at horizons  
leaving, watches night falling

in spit appearing  
as air to be seen

serenity has taken digits  
removed nose and earlobe  
threatened escape  
leaves the makeshift housing  
still slowly lifting off steam  
threatening with the beauty  
of sunset—

Darkness took and went  
the empty tundra's violence  
winked as if forgiven  
hardened darkness to the air  
abrupt: all immediacy and all nighttime  
and then in the suddenness of morning  
a terrible figure interrupts

Never dries out.  
Never removes itself

cavernous tissue  
couldn't remove the blood soaked warmth  
from the bodily steam freed  
frozen backbone to backbone asleep

Carved out a horse  
to sleep in, years  
stench, cavernous tissue hung  
out, stretched out lengths of endurance  
or bouts of barn sour  
hexes meant you stayed.

## Guess It's A Mustang

it's. just a car—

Look at it, walking away quickly  
walk back, circle it

spectate, who's name is that  
printed on the rear wheels?

Driving payments to pavement, service and social debts

have you seen this derangement hazard

looked up for a second through the haze and it's like mid march, maybe, high altitude and all and usually snowing this time of year but look up and there's lightning on the ridge, bright and out of place struck me and only glanced at then down again but felt that same blown apart wreckage the usual distance between the consecration replica and reiteration accidents wish could tell yuh, never able to supply it correctly one thing or another will fall off and then anything will and there's all the nothingness for everything anyways the beat corners of place it hits can't ever seem to then it's all over again noticing gargantuan restructuring mean adjustment to the measuring tools used for whatever as if invited...
